Altogether he will have to serve 87 days on the appeal case; 73 days on yesterday's case and five days extra for good measure, which will serve to keep him behind the bars for some 172 days.

Among machine manufacturers new business is coming in slowly, although one factory is planning to build an addition to its plant. Several creameries in the State closed temporarily during the past week. Reports from others, however, indicate an increasing volume of business. Addition country farms report large crop of apples. Reports from Grand Isle county state there was a good apple crop and good quality. The warm weather of the past week has interfered with a large retail trade although volume of business has been seasonably good.

Burlington manufacturers report labor fairly well employed, although one or two plants are working short time and force. Fall trade is developing slowly but outlook for future is good. Reports from Rutland show labor well employed and retail trade thus far this season slow, but outlook is good. Crop reports in this State indicate a liberal yield. At St. Albans farmers report good crops. General condition among manufacturing plants said unchanged. St. Johnsbury plants scale shops are fully employed and there is a small improvement in trade among retail merchants. Farmers report good crops of all products except potatoes. The creameries are doing well and retail merchants note a good trade.

VERMONT NOTES

The hearing in the case of State vs. Mrs. J. M. Dodge of Lunenburg, charged with the murder of William A. Heath, set for Tuesday last, has been postponed one week to give the State more time to produce evidence and get reports from doctors.

Mrs. Herbert Lyons of Bennington died Monday afternoon from the effects of a bulging chloroform. It was the opinion of the physician called in the case that her death was due to a weak heart and ignorance of the danger of using chloroform in enasing pain.

By the will of the late Mrs. Ezra J. Warner of Chicago a bequest of \$25,000 is made to be invested as a permanent endowment fund for the care and maintenance of science hall and the purchase of apparatus and supplies for the department of chemistry, physics and biology. Mr. Warner is a member of the class of 1881 and the donor of the Warner Science hall.

That the typhoid epidemic in Rutland is traceable to milk rather than water is the theory advanced by Dr. H. A. Francis. He studied and tabulated list of the cases and observed that a large number of the cases were within a radius of a few blocks, and that most of them were supplied with milk from a creamery that had no facilities for sterilizing cream. At this creamery there is a constant exchange of cans with the farm where the epidemic started.

SUICIDE IN WINOOSKI

Mrs. Mary Sheehan Ended Her Life in Peculiar Manner.

Hung Herself by a Cord Fastened to the Head of Her Bed—Had Shown Indications of Insanity for Some Time.

Hanging from the head of her bed, the body of Mrs. Mary Sheehan, 65 years old, was found Monday at the home of her niece, Mrs. C. A. Fitzpatrick, at 29 East Spring street, Winooski. The body was discovered by Mr. Fitzpatrick, telegraph operator at the Winooski station, at 7:30 o'clock when he went up to her room to see about her supper. Health officer Burdick was summoned and upon his arrival at 8:30 he pronounced her dead four hours.

Mrs. Sheehan, who had lived with the Fitzpatricks for twelve years, had given indications during the past three weeks of being of a deranged mind, and she had been closely watched by members of the family. Her actions had been peculiar, and early one morning she had been discovered in her night clothes across the road in front of the house, headed for the railroad tracks. A neighbor brought her back to the house. She was last seen alive Monday afternoon about 2:30, when Mrs. Fitzpatrick, worn out from watching her aunt, went for a drive with members of the family, leaving the house in care of some visitors. She was found at 7:30 and an hour later the tragedy was discovered. Mrs. Sheehan had hung herself by a common cord fastened to the head of the bed.

Mrs. Sheehan was a native of Ireland. She had lived in this country for 30 years. Since the death of her husband, 12 years ago, she had made her home with the family of her niece. Her nearest relative is a brother in Michigan. The funeral was held Wednesday morning.

SMALL FIRE, BIG CROWD.

Blaze in Mechanics Lane Quickly Extinguished.

Fire was discovered last evening about 9:30 o'clock in the shop of L. M. Ravlin, gunsmith, in Mechanics lane. The discovery was made by one of the employees in C. H. Beesey's stationary store at the corner of Church street and Mechanics lane. The fire was almost immediately under control and was extinguished with small loss.

It is thought that the blaze started in some boxes in the shop, but just how is unknown. The floor of the room was demolished in the effort to keep the fire from spreading. The building is said to be the property of J. B. Henderson and would have done more to a real construction, and the efforts of the firemen were somewhat hampered in consequence. DIVORCE CASE YESTERDAY.

Petitioner Person Who Loved Leisure Very Much.

The petition of Melvina Anderson, who seeks a divorce from her husband, Louis C. Anderson, was heard yesterday afternoon in Chittenden county court. Mr. S. Vilas appears for the petitioner. There is no appearance for the defendant. The grounds alleged are intolerable severity, refusal to support and adultery.

The parties were married June 12, 1902. The parties lived together for a year and until January 1893 lived together, although they led a migratory life, moving from Burlington to Philadelphia and back again with great frequency. According to the testimony of Mrs. Anderson, her husband gave her something like \$5 or \$10 a year, and that was his only contribution to her support. She said that he struck her on several occasions and that he drank booze with great regularity.

At the time of the marriage Anderson was a soldier but shortly after was honorably discharged and from that time on did very little work. Mr. and Mrs. Anderson were supported by the grandfather of the former and the father of the latter. Several witnesses were called to corroborate the testimony of the petitioner. Decision was reserved by the court.
